Hartford-Saxony Rugs!

The Finest Produced in America for Private Homes and Public Places

It is a Rug whose manufacture is based on an experience of upwards of forty years, employing methods and materials of the very best. The workmanship is of the highest type and the designs are largely faithful reproductions of the finest Oriental Rugs.

The great stock of HARTFORD-SAXONY Rugs at Miller & Rhoads speaks eloquently in its own behalf, being representative of such renowned Rugs as:

Hardjli Bakhara, Cashmere, Turkish Yaprak, Kermanshah, Herati Persian, Gorovan, Sarabend, Afghan, Kazak, Bijar, Manyadna and many other favored kinds. These in every size from a 27-inch by 36-inch to large Rugs 11.3x15, together with special sizes, are obtainable, although

6x9 feet size at - \$30.00 8.3x10.6 feet size at \$45.00 9x12 feet size at - \$50.00

The "Hartford-Saxony" Rug is not a new fabric, but has been tried and proven in years of wear in noted public institutions, hotels, clubs, banks and private homes throughout the United States.

Year by year it becomes more difficult to obtain the genuine Oriental Rug, so the "Hartford-Saxony" Rug has come to take its place, but at a much lower cost. You are invited to see these Rugs in our big Carpet Section on the third floor.

Warm Response.

Replying, Mr. Wright said the charges were indefinite and hazy. He said that any charge to the effect that he was guilty of untruthfulness was a wilful and deliberate slander, and that any accusation that he had been guilty of conduct unbecoming a gentleman could only be conceived by one who was himself unfamiliar with conduct which would become a gentleman. Any which would become a gentleman. Any charge, he continued, that he had deviated from the truth was in itself a serious deviation from the truth.

serious deviation from the truth.

Charges were also preferred against the School Board of Brookland District. These were somewhat rambling but set forth that the school rooms were not properly dusted; that children were kept in until late hours, that too high a standard—90 per cent—was required for promotions; that the school is "poorly teachered, poorly principaled and poorly superintended." Mr. Wright, replying in behalf of the board, said that the 90 per cent, requirement does not refer to promotions at all, but only to eligibility for a roll of honor; that there had been no com-

plaint to official persons of improper punishments, and that the teachers were for the most part well qualified, holding high certificates. Eghert G,Leigh, of this city, was elected a member of the State Library Board for the term of five years, suc-ceeding S. S. P. Patteson.

This case was peeling freely when seen, and was playing on the street with other children. The two cases in which, although there was an attending physician, no diagnosis was made until late in the course of the disease had not been quarantined.

Little Attention to Quarantine.

"In addition to these three cases, there have been several others in which, we had every reason to believe that little attention was given to proper quarantine, although in none of these instances was the evidence sufficient to report the matter to the Police Court.

"While there is nothing approaching an epidemic, nor is there any cause for the slightest alarm, it is, nevertheless, well to direct attention to the situation. Scarlet fever in Richmond for a number of years past, judging from the number of deaths recorded, has been of a mild type.

Will Hardly Be Ready for Occu-

Though work on the exterior progressing with apparent slowness, hevertheless the construction of Richmond's new post-office and Federa' building, at Tenth and Main Streets is going gradually ahead.

But there still remains a great deal of work to be done before the big structure will be under roof. For several weeks the contractors have devoted much of their attention to the preliminary interior work, putting in terra-cotta walls and window frames Most of the stone is in place, but on account of its slow arrival slow headway is being made in finishing it up.

There is no prospect that the building will be ready for occupancy before the early summer next year. It was to have been finished by December 1 this year, but the government granted an extension of time because the contractors were confronted with unavoidable obstacles, which hindered the work when it first began.

When finished the post-office will be one of the finest and most impoling buildings in the city. Though the dontract price is little less than \$700.000. Uncle Sam will have spent more than \$1,000.000 when he has finished equipping the post-office, two big courtrooms and the offices of all local government representatives.

> Monument Annex again held the centre of the real estate stage esterday and easily established a new record, thirty-seven lots

being sold for the sum of \$14,000 spot cash.

These sales are all the more interesting, when it is understood that the buying was not done by "amateur investors," but by shrewd business men of seasoned experience, and who are recognized as

men "WHO KNOW." These investors readily realized that Monument Annex, with streets as Broad, Fitzhugh Lee, Cutshaw, Grace, Franklin and Monument Avenue traversing it, has a future that is unlimited in possibilities to the investor.

It is learned that after the smoke of yesterday's selling cleared away, there were only seventy-five lots remaining unsold. Blanton & Co., Sales Agents for the property, expect the remaining seventyfive lots to be sold within the next few days-"within the present week," to use the exact words of a representative of that enterprising firm, when seen in their offices in Travelers' Building last even-

Continuing, the representative said: "Some of the lots included in to-day's transactions sold for as high as seventy per cent. profits to the original purchaser. Stick a peg here-this is anothe avalanche of proof that the unbounded faith we have always had for the brilliant future of Monument Annex is the sane, correct one.
